Keeping Downtown Parking Available

84%

of downtown parking spots remain free; this includes street parking

16%

of downtown parking spots will be paid (all located in parking lots)

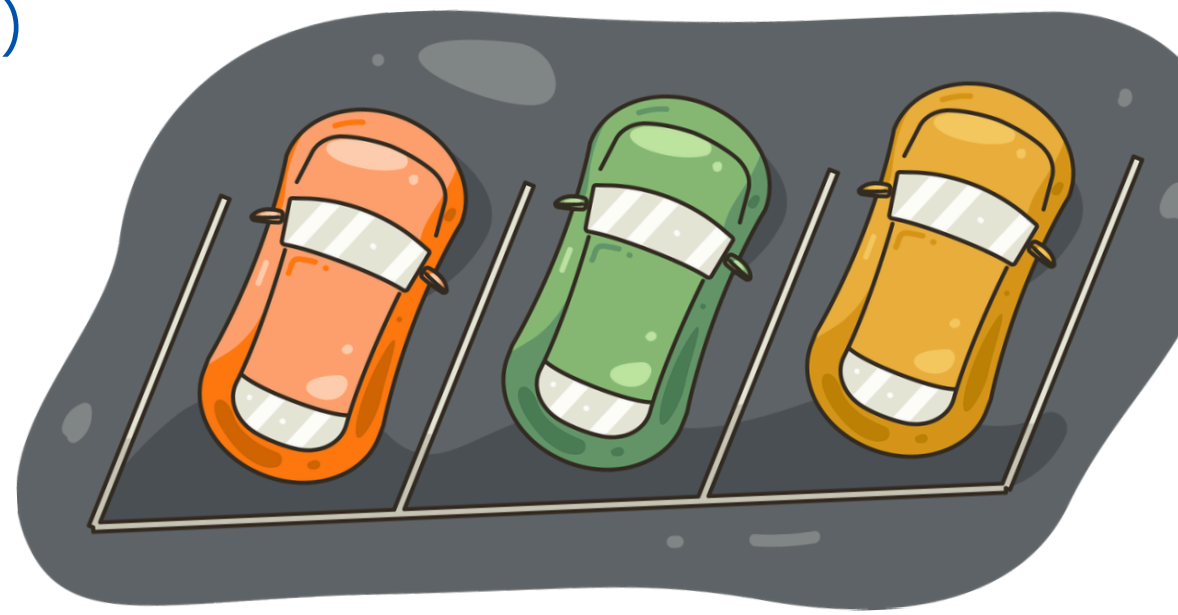

What to Expect

Starting in November 2026, the City of Davis will introduce paid parking in three parking lots downtown, F Street (between 3rd and 4th streets), G Street (between 2nd and 3rd streets) and the Amtrak Station. E Street Lot is an existing paid lot.

- The initial rate is $1 per hour in these three lots.
- New pay stations, parking signs and wayfinding will make parking simple and easy to use.
- The program will include convenient payment options, including mobile pay and credit card payments.
- The City will continue evaluating the program and make adjustments as needed based on parking demand and community feedback.

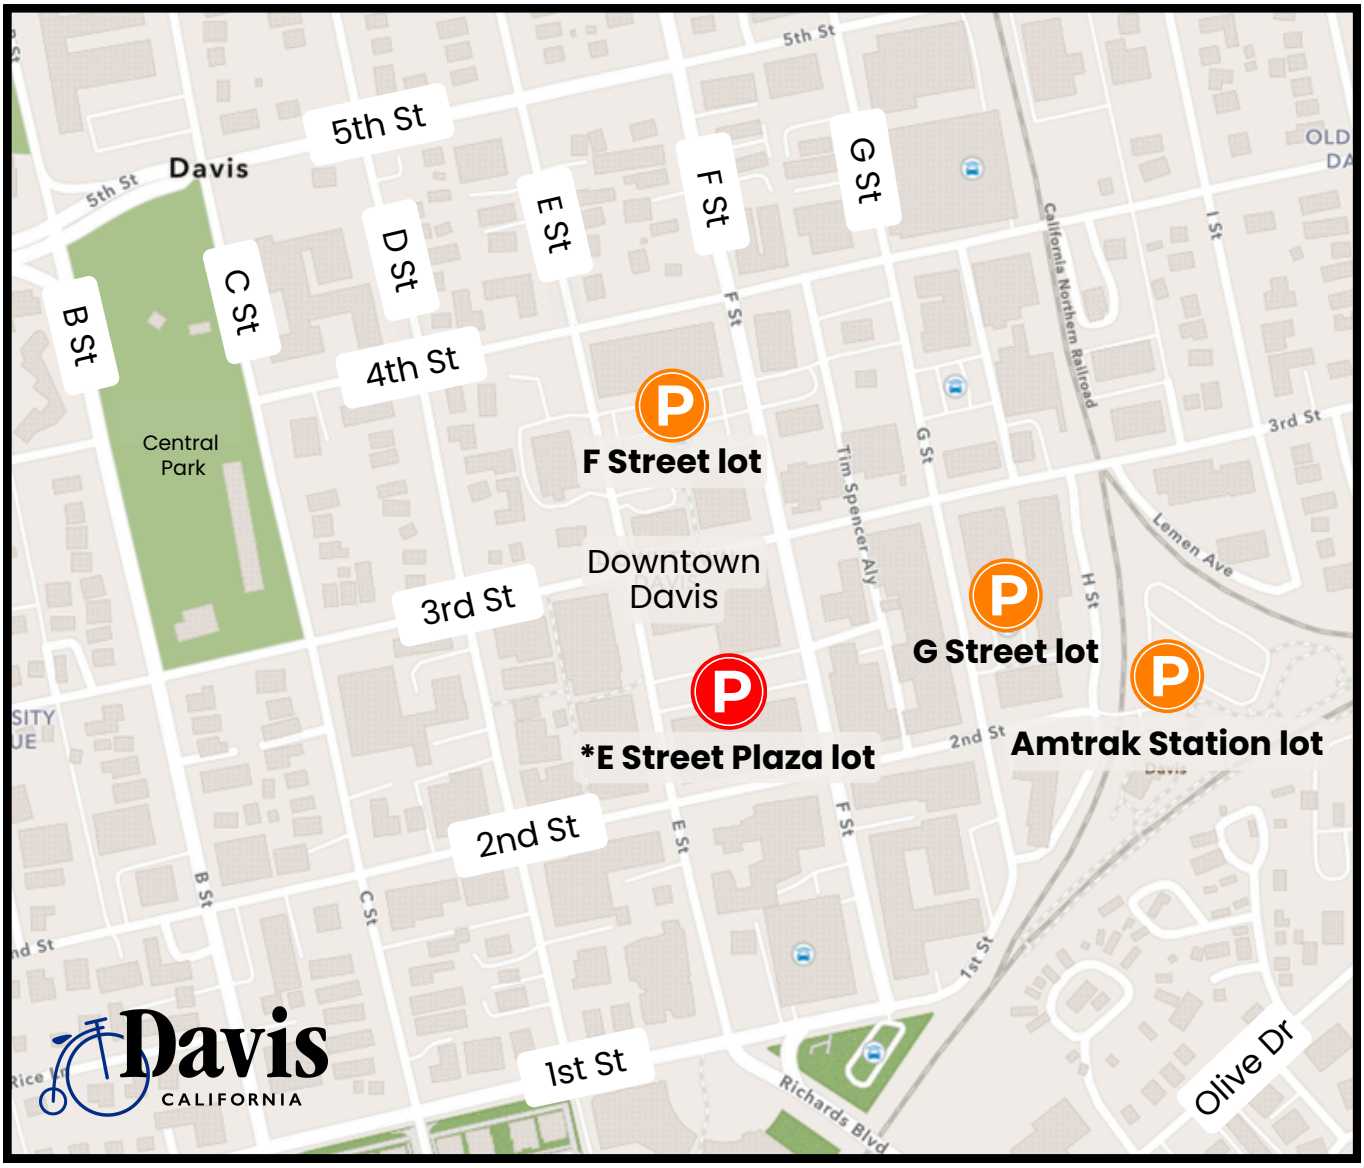

Why Paid Parking

- Paid parking encourages turnover, helping customers find available parking throughout the day.
- More available parking helps support downtown shops, restaurants and businesses by making it easier for customers to visit.

Davis CALIFORNIA
